CMPT 276 - AI Disclosure Form - Spring 2025

Why this survey? This disclosure form aims to *help us understand and reduce any potential risks* related to the use of AI tools in this course.

Please complete the survey **by yourself** and be **truthful**. *Using AI tools will not negatively affect your marks for the assignment/lab/etc.*

What do we mean by AI tools in this survey?

AI content generators refer to any tools that create any type of content, including (but not limited to):

- ChatGPT and all other large-scale language models;
- Stable Diffusion and other AI-based Image Generators;
- Code extensions for IDEs;
- Other tools that are capable of generating text, image, codes, or any other content for the course work. BUT, <u>Grammarly and other grammar checkers are NOT included.</u>

For more information on our policy, please refer to: https://parsa-rajabi.github.io/CMPT-276/#/ai-policy

1. First Name (as appears on Canv	'as) * □,
Mara Liwayway	
2. Last Name (as appears on Canv	as) * 🖫
David	
3. Student ID * □	
301588878	

4. Which assignment/lab/project submission is this AI use disclosure for? *
Project submissions are included as "MX" aka Milestone X, where X is the milestone number

M0

5. How do you feel about using AI content generators in relation to your personal standards of academic integrity for this submission? * \square

	Completely Acceptable	Somewhat Acceptable	Neutral	Somewhat Unacceptable	Completely Unacceptable
In my personal standard of academic integrity, using AI content generators for this submission is					

6. Please explain your rating above regarding academic integrity of AI use for this submission. Why? (Write in 2-3 sentences) *

Following the "Is It Safe to Use GenAI for This Task" adapted from a graphic by Aleksandr Tuilkanov, it is safe to use AI for ideation. For Milestone 0, it may be helpful for some to use AI to generate feature ideas after choosing their four APIs.

7. Did you use AI tools for this submission? *

Yes

No

8. For this submission, how would you rate the relative contribution made by your versus AI? *

Mostly by myself, some Evenly split between contribution by AI

myself and AI

Mostly by AI, some contribution by myself Entirely by AI, no contribution from myself

This submission is...

9. How did using	g AI content genera	ators impact <u>yc</u>	our learning for	this submission?	* 🗀
	Greatly benefited my learning	Somewhat benefited my learning	Had no impact on my learning	Somewhat hindere d my learning	Greatly hindered my learning
Using AI content generators for this submission					
10. Please explain 2-3 sentences	n your rating above	e about AI's imp	pact on your learr	ning for this subm	nission. (Write in
providing me	ped me brainstorm for with feature ideas bood with the three f	that I hadn't coi	nsidered myself. A	dditionally, I ensur	
11. List the name	all the AI tools tha	at you used for	this submission *	· 🕠	
ChatGPT					
12. How confiden	t were you in AI's	responses that	you received? *		
Confident					
Somewhat	confident				
Neutral					
Somewhat	not confident				
Not confide	nt				

13. How did you ensure the answer you received from the AI tool was correct? *

After ChatGPT brainstormed some feature ideas for me, I double-checked the AssemblyAI website to ensure they had the capabilities for this. For example, the AI tool recommended I could do a sentiment analysis feature, so I checked the website to ensure its capable of doing this. Fortunately, I discovered this API can classify user audio into positive, negative, or neutral!

14. Did you at any point abandon using AI tools and seek other resources? Explain your answer. (optional)

What made you abandon using the AI tool? Were you more successful using other resources? Input N/A if you have not used any

No. ChatGPT performed up to my standards.

15. For each of the following items, how would you rate the relative contribution made by you versus AI? * 👊

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Not applicable
Writing - Proofreading: To revise written work for grammar, typos, style, and other related items						
Writing - Text Completion: To complete sentences, paragraphs or even entire documents						
Writing - Text Ideation: To generate new ideas, concepts; and examples for writing submissions						

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Not applicable
Text analysis: To make sense of text and generate insight as to what it means						
Summary: To quickly understand large amount of text by extracting important information						
Q&A + Research: To get answers from questions and find relevant information						
Illustration/S ketching: To create visual representations of concepts and ideas such as diagrams, charts, illustrations						
Coding - Write: To generate code by AI for software implementation	\bigcirc					
Coding - Test: To generate <u>code</u> <u>tests</u> by AI for software implementation						
Coding - debug: To identify issues with existing code for software implementation						

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Not applicable
Coding - explanation: To understand what a code snippet does for software implementation						
Other: to help any other aspects of the submission not listed above	\bigcirc					

16. Please explain your ratings above, especially if you have AI tools for "other" types of work. *

For the Writing - Proofreading section, I utilized ChatGPT to reformat the wording of three user stories to ensure it matched the exact sentence structure Professor Parsa presented in his slides (check Week 3 slides). Please note that the content was not generated by AI, but only the formatting of the user stories were edited. For the Writing - Text Ideation section, I used ChatGPT to brainstorm feature ideas for using the AssemblyAI API. Of course, I researched this API to

17. Please provide use this space to provide any other information that you'd like to disclose (optional)
